in Pharmaceutical Facilities

Your trusted partner for hygienic cleanroom doors

Dortek are market specialists with over 50 years' experience in providing high performance door solutions to the world's leading pharmaceutical companies.

We understand the unique and stringent requirements of high hygiene environments. We understand air flows, work flows, contaminants and local regulations. We know what works and what doesn't. Our product portfolio offers a comprehensive single source for all doors, windows, frames, hardware and automations on a project.

Dortek is recognised throughout the markets we serve for its commitment to innovation, quality and customer care. Our clients trust our specialist expertise to find the right solution for every project and every door and to deliver that solution on time and to budget.

Complete access solutions and services from Dortek

- ✓ Full Project Management
- ✓ Design & Planning
- ✓ Customized Solutions
- ✓ Drawings & Scheduling
- ✓ Code & Regulations Compliance
- ✓ BIM Objects
- ✓ Specialist Manufacture
- ✓ Installation, Repairs & Servicing

- ✓ Bacteria resistant
- ✓ Fire resistant
- ✓ Water resistant
- ✓ Impact resistant

Dortek GRP Doors

Engineered for hygiene, strength and longevity

GRP (Glass Reinforced Polyester) is an extremely tough, clean, water resistant material ideal for demanding environments where performance and hygiene are crucial.

Our doors are produced using a unique closed mould process, creating a strong, uniform product with no seams or joins on the door surface and no holes or crevices within.

Unlike alternatives, colour is built into the door during the manufacturing process, ensuring that our doors will never require repainting or refinishing.

Key Features:

- Fully encapsulated seamless design
- Free from ledges, voids, holes and crevices
- Easy to clean and disinfect
- Fire, water and chemical proof
- Strong, stable, lightweight, low maintenance
- cGMP and FDA compliant
- Non shedding and will not rot, rust, warp or crack
- Naturally environmentally-friendly: long life expectancy.

*Dortek door blades are subject to a 25 year guarantee, assuming normal wear and tear. Conditions and usage must be in accordance with our terms and conditions.

DorteK GRP Doors

VS

Steel Doors

Reasons TO specify DorteK GRP

- ✓ Smooth, seamless, easy to clean construction. Does not harbour bacteria.
- ✓ Will not rot, rust, swell or warp. Completely sealed and impervious to the elements.
- ✓ Unaffected by moisture, disinfectants, chlorine and VHP (vapourised hydrogen peroxide).
- ✓ Choice of gel coat colours which are moulded into the door. Never needs painting.
- ✓ 42% lighter than steel, making them much safer and easier to operate.
- ✓ Naturally friendly to the environment. Longevity, cleanliness, strength and stability. Low lifecycle costs.
- ✓ Can be guaranteed for up to 25 years against failure due to corrosion, swelling, rotting, delamination or expansion.*

Resistant to water & chemicals. Will not corrode.

Extremely lightweight blade, minimal wear on hinges.

Reasons NOT to specify Steel

- ✗ Large seams, voids and crevices which are hard to clean and perfect breeding grounds for bacteria.
- ✗ Rusts from the inside out causing health and security hazards.
- ✗ Not waterproof and often oxidises when exposed to regular cleaning regimes.
- ✗ Unhygienic painted surfaces which mark and dent easily and require continuous maintenance and upkeep.
- ✗ Heavy to operate. Needs expensive maintenance work & replacement due to excessive wear on hinges / closers.
- ✗ Continuous painting / replacement is harmful to the environment. 25 years could see up to 10 replacement doors.
- ✗ The standard warranty for a steel door is only 1 year & this does not cover failure due to corrosive environments.

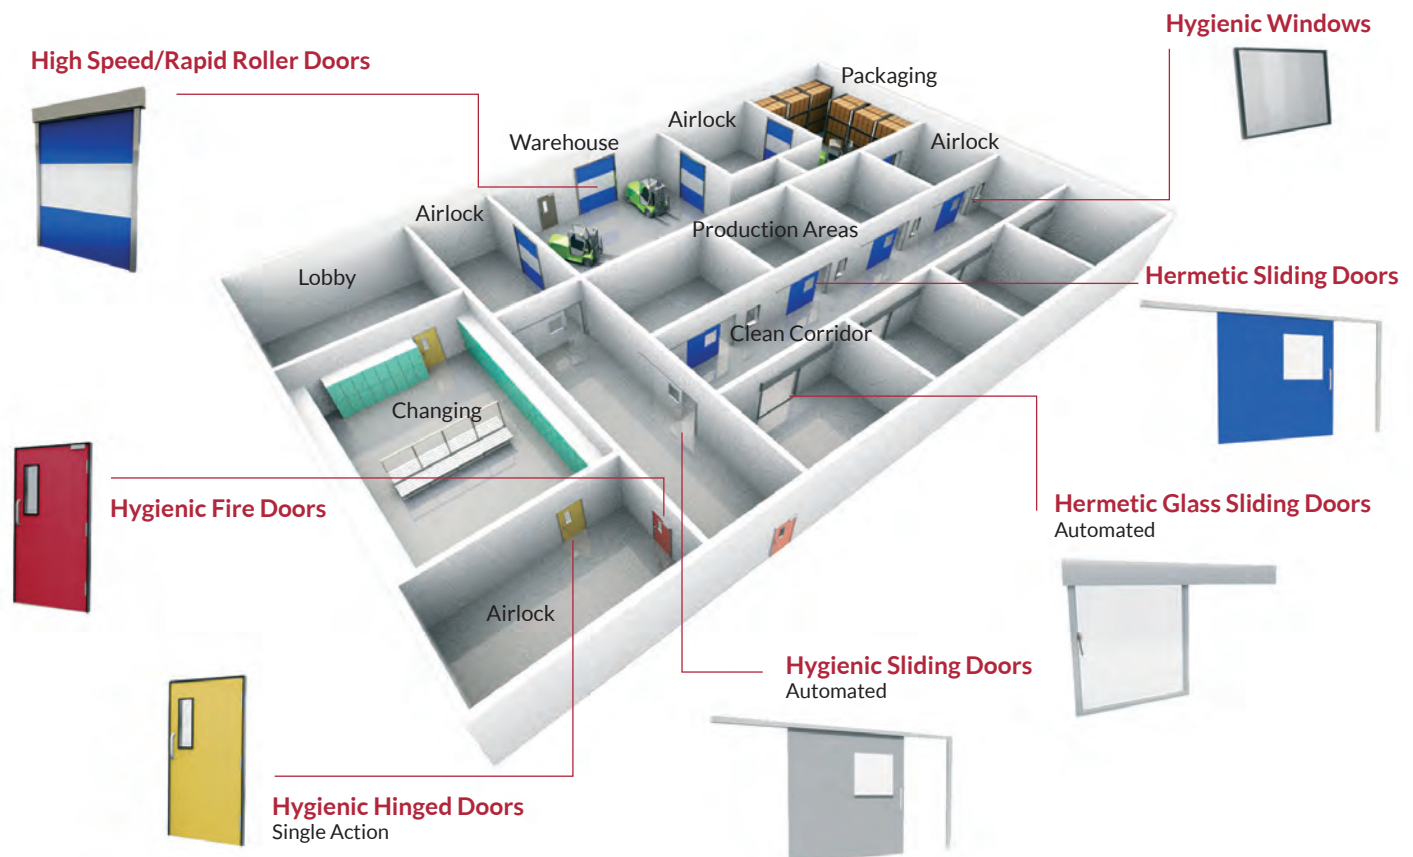

Corrosion on door and frame.

Hinge failure due to weight. Unhygienic crevices & rusting.

* DorteK door blades are subject to a 25 year guarantee, assuming normal wear and tear.

Innovative solutions for a range of pharmaceutical applications

Door frame options

- GRP frame
- Fire rated GRP frame with patented concealed intumescent strip
- Various stainless steel frames
- Aluminium wrap-around frame for wall panel.

Sealing options

Dortek doors can be supplied with a range of sealing options to help control clean air cascades and assist with the final air balancing of the pharmaceutical facilities.

Wall system integration

Dortek offers a complete line of cleanroom doors and windows designed to integrate seamlessly into wall systems.

A complete range of door solutions for high performance clean environments

Dortek provide all the services and products that are needed to deliver a comprehensive solution. All Dortek doors can be supplied and installed as complete door systems with the door leaf, frame, hardware, vision panels, automations and interlocking to provide a fully-integrated system.

Hygienic Hinged Doors

Our hinged doors are ideally suited to areas requiring maximum hygiene, cleanability and durability. They are extremely strong and durable, yet light and easy to operate. Available as singles or pairs, single swing or double swing.

Hygienic Sliding Doors

Our sliding doors offer the same hygiene and safety features of our hinged doors, but with the added benefit of wider openings on a durable runner system. Available as single or bi-parting doors.

Hygienic Fire Doors

Dortek's fire doors meet over 90 independent tested specifications compliant with worldwide regulations. We are fire certified to UL, BS, EN, China, Singapore, Australia and New Zealand standards. Our fire rated door systems provide up to 4 hours' fire resistance.

Hermetic Sealing Sliding Doors

These doors are essential for areas where control of air leakage is required. The unique, patented track system has a 99% air-tight seal helping to reduce cross contamination and expensive air handling costs. Doors are available in glass or with fire ratings and as single sliding or bi-parting.

Transfer Hatches

Dortek transfer hatches efficiently move supplies and specimens in and out of clean areas. Constructed from either 304 or 316 grade steel, and acrylic or stainless steel framed glass doors. Our hatches have electromagnetic or mechanically interlocked doors to prevent depressurisation and to minimise the risk of contamination.

Product Selection

Dortek hygienic doors are designed with safety, style and functionality in mind. Our doors are available in a range of standard or custom sizes, colours and configurations to suit your environment.

Installation & Servicing

All installations and service calls are carried out by our own fully trained engineers. Please contact us to find out more about our range of service contracts.

High Speed / Roller Doors

Designed to save energy and create better working conditions where fast access is required. Dortek's range of high speed doors are eco-efficient high-speed internal and external doors designed to prevent cross contamination, save energy consumption and reduce the sound of noisy plant and guard machinery.

Glass Doors

Dortek glazed doors are durable, have a modern contemporary look and are ideal for providing maximum visibility - perfect for both open plan or confined spaces. Choose from sliding, swing, hermetic sealing and touchless options, to suit your environment.

Interlocking / Automated Doors

Our interlocking and automation systems are designed to provide safe, efficient and convenient access in controlled environments. Our systems can be connected to many types of activation devices from a basic push button to a fully-integrated building management system. Our range of manual and automated doors can be interlocked and systems can range from simple two-door interlocking to complex locking sequences.

Windows & Vision Panels

Dortek windows are double glazed with an ultra clean flush surface. Dortek vision panels can be integrated with our doors to offer enhanced privacy while lowering infection risk and reducing cleaning costs. Our windows and vision panels can be offered with LCD switchable glass, lead, fire and laser protection.
