Why You Should Use Dortek Hygienic Doors

- Smooth and seamless, easy to clean, will not harbor bacteria
- Free from voids, ledges and troublesome lippings
- Lightweight, strong, durable and maintenance-free
- Water & chemical resistant - will not warp, swell, rust or rot
- Designed to meet GMP, FDA and cleanroom requirements
- Fire resistant with hygienic concealed intumescent strip
- Naturally environmentally-friendly: long life expectancy

Right First Time

Dortek Hygienic Doors

With a smooth and seamless construction, Dortek doors have no ledges, recesses or right angles where dust or bacteria can be trapped and grow.

Our doors are free of timber and other organic materials that promote bacterial growth. This makes them ideally suited to areas requiring maximum hygiene and cleanability.

Dortek doors play an essential role in preventing cross-contamination as well as maintaining correct room pressures, air circulation rates and ensuring optimum operating efficiency.

Customized Solutions

We understand that not all projects are the same, that's why Dortek hygienic doors are crafted to meet your individual specifications.

Whether your main priority is infection control, fire protection, impact resistance, radiation defence or a combination of these requirements, we can offer customized solutions to meet your needs.

Dortek hygienic doors are designed with safety, style and functionality in mind. Our doors are available in a range of standard and bespoke designs, colors and sizes.

What our Clients say:

I was impressed with the knowledge and flexibility of the Dortek projects team who worked with the user to identify the best specification, including optimal hardware in every case. We made our decisions based on the experienced Dortek team and evaluating their quality doors in place.

Patrick Sharp
Principal,
Clerestory Life Sciences Consulting

Dortek has a strong understanding of its clients' needs and aspirations. They have a huge amount of experience and a sincere commitment to achieving excellence across the industries they work across.
